

Keeping your home and family healthy

Eliminate 99.3% of contaminants in your home

It's estimated that we spend approximately 90% of our time indoors. Yet there are up to 1,000 contaminants in our home. Small wonder that up to 50% of illnesses are caused by poor indoor air quality. The good news? You can do something about it. ClimateCare indoor air quality systems eliminate up to 99.3% of those contaminants, leaving your home healthy and clean. That's good news for anyone with allergies, asthma or simply prefers to breathe clean air. So call your personal climate expert today. Then take a deep breathe, and relax.

Protect your investment with a "WeCare" Maintenance Plan.

You have thousands of dollars invested in your heating and cooling equipment. The best way to protect that investment is with regular maintenance. Like your car, if it's well maintained it will be safer, run better, use less energy and last longer. A ClimateCare "WeCare" maintenance plan includes everything that can be done to restore your heating and cooling system to its best possible condition. Our maintenance plan meets or exceeds all manufacturers' warranties.

ClimateCare's Guide to Your Home Heating Comfort

Your personal climate experts.

CLIMATECARE

ClimateCare, a Name You Can Trust & Be Comfortable With

At ClimateCare, we specialize in improving your personal climate - making sure your home is cleaner, healthier and more comfortable than ever before. ClimateCare professionals have been taking care of homes and families in your community for years. So when the time comes to replace your old, worn-out furnace or upgrade to a new high-efficiency heating system, call the personal climate experts - the professionals at ClimateCare.

We're personal climate experts. And we're your neighbours too.

As a network of independent contractors, ClimateCare members have been taking care of homes just like yours for decades. ClimateCare member companies are dedicated to providing technical excellence through ongoing training to ensure that we provide your family with the best service experience in the industry. And we're your neighbours too, so you know we will do our very best, it's the kind of care you can only get from someone you might run into at the market later that day! ClimateCare members are family owned and operated companies offering fully licensed and qualified technicians around the clock. We guarantee your satisfaction in everything we do-like a neighbor should.

Energy-Efficient and Environmentally Responsible

Energy costs and environmental issues concern everyone. ClimateCare furnaces can reduce your energy costs by as much as 40% when compared to furnaces that are 20 years or older. Our high-efficiency systems have earned some of the highest ratings in the industry. It's peace of mind for you and your family, knowing that your furnace is Energy Star Qualified as one of the most energy efficient furnaces you can buy today. Live better, live healthier with an energy efficient, environmentally friendly ClimateCare furnace today.

Up to 98.0% AFUE

All ClimateCare products come with one of the best warranties in the industry

Improve your personal climate...
